المتحدة الخليجية للتحالقات الصناعية

COMPANY OVERVIEW

We are a Saudi company based in Al-Jubail City, Kingdom of Saudi Arabia. Al-Jubail is the first industrial city of KSA, conceived by the SABIC for a petrochemical complex around 3 decades ago. The Company historically has offered complete business solutions for various industries situated there.

United Supply has strong international connections. The present dispensation thought of expanding the services to other countries by going globally.

Now United Supply stretches out to serve the Middle East, & GCC. For end-to-end MRO & GOS solutions for a plethora of sectors.

OUR VISION

To be the most diversified material supply company in the whole of Middle East and MENA region. Also to become the most reliable partner for MRO Supply.

OUR MISSION

To Achieve the Highest Level of recognition as a leading Industrial project Support Service company in Saudi Arabia.

OUR FOCAL POINTS

FOCUS ON SAFETY

We understand that a turnaround has inherent safety risks for all parties involved. That is why we make safety a top priority in addition to the work being completed. We ensure that all safety guidelines are thoroughly explained to workers and we provide on-going safety supervision.

CAREFUL PLANNING

A turnaround is a complicated undertaking. Before we do anything we formulate a thorough plan that is tailored to meet the needs and situation of the particular customer and turnaround. Through this careful planning, we are able to maximize efficiency and provide superior results.

CLEAR COMMUNICATION

We pride ourselves on establishing a close working relationship with each of our customers. This allows for clear, direct communication, ensuring that the primary objectives of the turnaround are well understood and have been carefully taken into consideration.

PROJECT MANAGEMENT

Overseeing a turnaround is a very complicated logistical undertaking. However, United Gulf Group has years of experience in project management and we are dedicated to overcoming every obstacle that arises. We provide the scheduling services, record keeping, and multi-department interfacing that are necessary to keep the turnaround on track.

MANPOWER SUPPLY

SUMMARY

Ugicon provides highly talented and skilled engineers, technicians, supervisors and skilled workers for construction and maintenance jobs in various projects of civil & structural, mechanical and e&i. we follow well organized system and standard procedure in selecting personnel and resources where we stand unique and apart from other service providers which meets the expectations of our clients.

ENGINEERS

United Gulf Group provides premium specialty welding and field services. Our highly skilled specialty welders have the metallurgical expertise and field experience it takes to weld on a full range of materials and industrial equipment. While our rigorous quality practices result in weld-rejection rates that average less than 1 percent, Our meticulous planning and scheduling, project management also ensure a smooth, seamless experience for our customers with minimal disruption to the job site.

EXECUTIVE STAFF

Financial executives, accountants, cost estimators, quantity surveyors, secretaries and administration staffs.

INDUSTRIAL SUPPLY

MILL SUPPLIES IN STAINLESS STEEL, NICKEL ALLOY, 6% MOLY, DUPLEX, SUPER DUPLEX

Pipes
Plates
Bar
Angle
Channel
Perforated Sheets
Wire Mesh

FLANGES & PIPE FITTINGS

Elbow, Tees, Couplings, Caps, Plugs
Bushings, Reducing Inserts, Crosses
Unions, Nipples & Sockets
Weldolets, Elbolets & Inpofages
Welding Neck Flange
Slip on flange & Blind Flange
Screwed / Long Welding Neck Flange
Cover / Swivel / Anchor FLange
Pad & Reducing Flanges

HOUSES CON BELTS SERVICES

HYDRAULIC HOUSES

H.C.Material: Forge Steel (Cr40) Crimping Range: 1/4"—2" 4SP System Pressure: 31.5Mpa Voltage: 220V/380V 4kW Control: CNC

CONVEYOR BELTS

Our conveyors have width of 500, 650, 800, 1000, 1200, 1400 and 1600mm while there is maximum flexibility for length. Capacity is up to the demand of the project and usually range from 10 t/h up to 5000 t/h. All conveyors are of highest quality, steel frame with prime coat after sand blasting and usually 2 ply paint coat of best quality, while most frames are hot dip galvanized.

TECHNICAL SUPPORT

Our technical support team identifies and treats the problem as soon as it occurs through a central analysis and organized support. The technical support system provides a fast and effective service that allows our customers to interact with the services provided with ease and flexibility.

POLYMER PIPE & FITTINGS

HYDRAULIC HOUSES

H.C.Material: Forge Steel (Cr40) Crimping Range: 1/4"—2" 4SP System Pressure: 31.5Mpa Voltage: 220V/380V 4kW Control: CNC

FITTINGS & NUT

Auxiliary Material for Piping, Fitting, and Plumbing, Fitting for Water Supply Piping, Plated Fittings - Elbow with Cap Nut for Flexible Pipes

BEST DELIVERY

PVC, PP, PE are frequently used for industries. Polyethylene is a thermoplastic resin obtained through the polymerization of ethylene (C₂H₄), an unsaturated hydrocarbon normally occurring, under normal conditions, as a gas. NUT consist of many types used for industries with various heat treatment and coatings. we have specialised people to get the material as required.

VALVES & BEARING

HIGH QUALITY

From initial consultancy, planning, installation, operation and maintenance to classic and digital service concepts: UGICON is on hand to help you over the entire life cycle of your system

WELDING MATERIAL & GASES

WELDING CONSUMABLES

All types of welding electrodes and consumables such as plasma cutting machines and hand held systems. Hypertherm plasma cutting machines are well known for higher cutting speed with superior cut quality, which do not require further finishing operation like grinding.

INDUSTRIAL GASES

Most of the the types of GASES are available and filled in our facilities. Oxygen, Acetylene, Argon, Carbon Dioxide . Nitrogen Helium Hydrogen, Mixture Gases, and Freon.

ABOUT SUPPLY

Along with welding accessories , with our associate company, we are considered one of the leading companies in the distribution of all types of gases in Saudi Arabia . we serve in industrial gases, specialty, and refrigerant gases most of types such as Oxygen, Acetylene, Argon, Carbon Dioxide, Nitrogen Helium Hydrogen, Mixture Gases, and Freon.
